How the Course Works

Welcome! This self-paced course is designed so you can learn at your own pace, whenever it's convenient for you.

The course includes **22+ step-by-step video lessons** that guide you through every stage of creating a Madagascan Sunset Moth painting. Simply watch a lesson, complete the exercise, and move on to the next. You can pause, rewind, replay, and review the videos as often as you'd like.

All lessons are available immediately upon enrollment, so there is no waiting for new content to be released.

Each lesson includes:

- Step-by-step instructional videos
- Downloadable workbook pages and reference materials
- Lifetime access to all course content

You can print the workbook pages at home or view them on your computer or iPad while you work.

The lessons are presented in a logical sequence, and I recommend completing them in order. However, you're welcome to revisit any lesson whenever you need a refresher.
